

Enabling Pop-ups in Chrome

When using the Support features in ALGVacations.com, you will need to ensure your browser's pop-up blocker is not preventing you from completing your requests. Use the steps below to ensure there is no delay in getting the support you need.

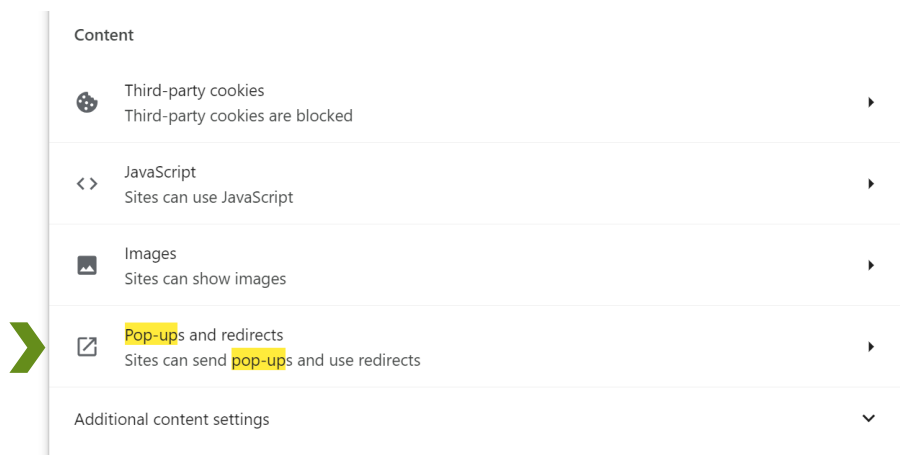

1. Open Google Chrome.
2. Using the ellipsis (three dots) on the top right, select settings.

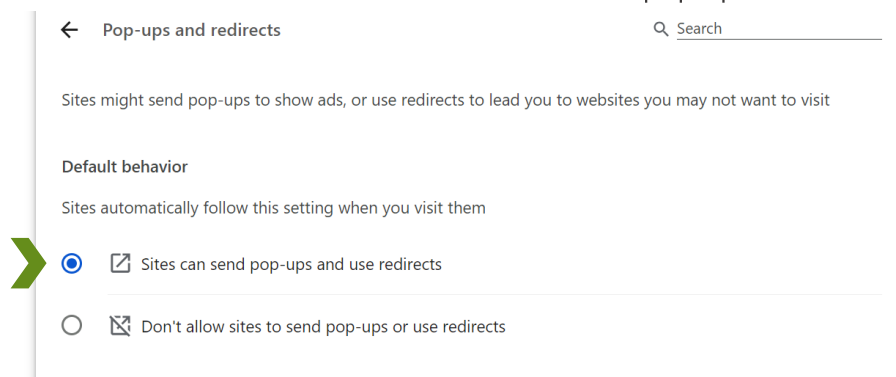

- In the Settings search bar at the top, enter “pop-up” and select the Site settings option below.

- Scroll to the bottom and choose the option, Pop-ups and redirects.

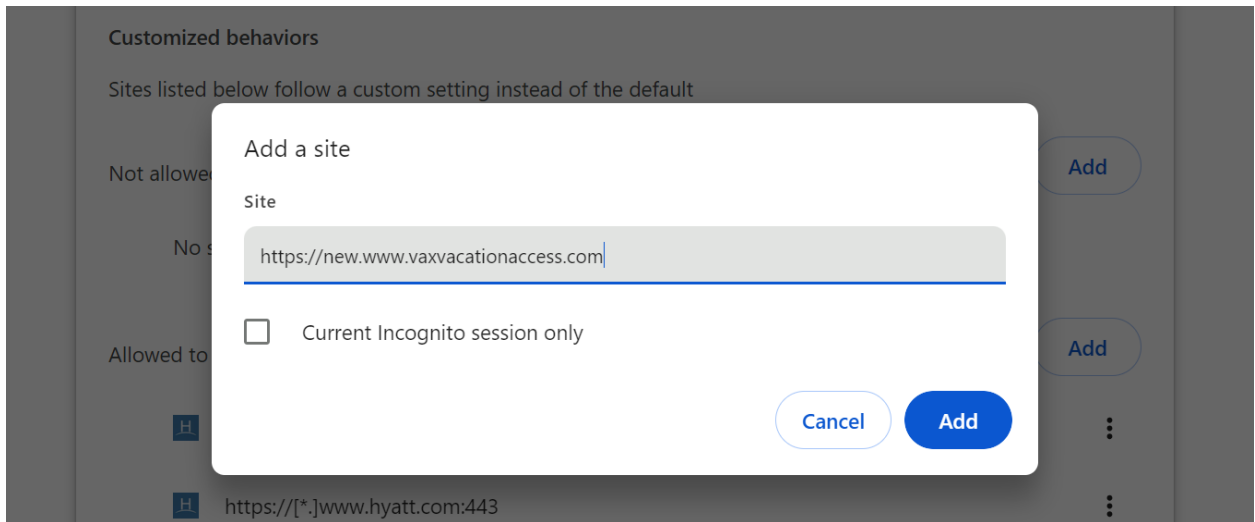

- Under the Default behavior section, select Sites can send pop-ups and use redirects.

- Toward the bottom, there is a section for *Allowed to send pop-ups and use redirects*. Click on the **Add** button and in the window paste in the VAX URL:

<https://new.www.vaxvacationaccess.com>.
